

## Waxahachie Gymnastics Center, LLC - PRIVATE LESSON PROGRAM

All athletes seeking private instruction must, at a minimum, be enrolled in the Private Lesson Program. If they are currently enrolled as an athlete and already taking classes, they do not need to enroll in the Private Lesson Program, but they are still required to sign a Private Lesson Contract. Enrollment into the Private Lesson Program is done via iClass and provides the parent liability waiver, secures a space for instruction, and ensures the athlete is covered by the insurance at the gym while they are receiving instruction. The pay rate for lessons is in addition to the monthly charge for enrollment in the Private Lesson Program and is paid directly to the coach conducting the lesson. If multiple athletes will be attending the same private lesson, the additional athletes and guardians must be enrolled and sign a contract as well.

### **Private Lesson Contract:**

**Scheduling:** All Private Lessons are to be scheduled directly with the coach conducting the lesson – please know that privates should be scheduled outside of class times, birthday parties, special team practices, and/or any other events hosted by or benefiting WGC, unless approved by a Program Director/Owner. A generalized schedule for what days and times are available for Private Lessons can be provided by the requested coach to determine availability.

**Coaching Courtesy:** Parents, if your child is traditionally coached by someone other than the coach you are requesting a private lesson through, please know that the coaches will discuss the progressions between them and determine the best way forward for the child. We believe in transparency and want to make sure you get the best instruction.

**Athlete Eligibility:** Any athlete already enrolled at WGC for classes or team is eligible for private lessons. Any athlete/student/child not currently enrolled must enroll through our Private Lessons Program for registration and waiver purposes.

**Safety Requirements:** No athlete can be left alone in the gym with another student/athlete without another staff member or student present. A parent, additional students, or another coach must always present. Please refer to the One-On-One section of the US Center for Safe Sport Policy for further clarification and exceptions to this rule.
